DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 6, 13, and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Hiyoshi et al. (4,993,190).

Hiyoshi et al. disclose a lapping apparatus having a lapping film which includes a thin substrate having an abrasive surface, a shoe, a shoe driving unit, a rotational driving unit, a detecting unit, and a controlling unit for controlling the pressing force, the lapping film being inextensible and deformable.

Allowable Subject Matter

3. Claims 2-5, 7-12, 14, and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ohashi et al., Judge et al., Rice et al., Wasserbaech, Wormley et al., Patterson et al., Bonachera et al., and Kiriya et al. each disclose a polishing, or lapping, apparatus.
